

YABBA DABBA DOOO!

Use joystick, or cursor keys (SHIFT = Fire). Fred must build his house and find Wilma. Clear the site of little rocks by flinging them down the tip, and then use big rocks to build the house. Fred can climb on a dyno-saur to build the roof and chimney, but he'll need money to rent one. Wilma is somewhere in Bedrock City. If Fred meets her often enough, she may follow him to his smart new house. Gain extra points for building the furst house in Bedrock City.

Designed and programmed in England for Quicksilver by Taskset of Bridlington.
